

HISTORY

Key Stage 3

We believe the aim of the Humanities department is to engage students by learning about exciting topics that teach students about the importance of people in the past and of people today and to understand that the world that we live in, has been shaped by millions of years of change.

History allows students to study significant events, issues and individuals of the past. Throughout Key Stage Three and Four, History deals with some of the most interesting people and events of the past millennium. The study of History will help students to understand the world in which they live today. Students will develop critical, analytical and communication skills through the exploration of themes and Interpretation.
